

Certificate Adult Guidance Theory and Practice (Level 8)

Introduction

The course had been developed by the Department of Adult and Community Education, Maynooth University in collaboration with current agencies and other stakeholders in the field of Adult Guidance. The course will begin to address the needs of those working in a guidance capacity with adult learners, unemployed and disadvantaged adults and those exploring career options. It will introduce people to models of labour market educational guidance and will begin to explore the theoretical principles which underpin good guidance.

The course will begin to:

Familiarise participants with theories and approaches to adult guidance counselling;

- Provide an opportunity for participants to develop increased self-awareness;
- Develop participants' applied skills in adult guidance;
- Provide a forum for practitioners to explore models of good practice;
- Explore the relationship between unemployment, poverty and social exclusion.

Entry requirements:

Participants will have experience working with people in an advisory context. The course will be particularly suitable for those who want to develop and enhance their theoretical understanding of adult guidance and counselling. It will enable participants to develop the appropriate skills and knowledge to access the Diploma/ Postgraduate Diploma in Arts (Adult Guidance Counselling) – subject to selection process.

Course delivery and duration:

- The course will be delivered in an open learning format incorporating home based learning materials and workshops.
- Home based learning materials = 100 hours
- 7 workshops = 100 hours
- The 7 workshops, normally in units of 2 days duration (Thursday and Friday, 9.30 – 5.00pm) once a month over 7 months, will provide an opportunity for participants to familiarise themselves with adult guidance and reflect on their work. The methodology of the workshops will be based on an experiential approach which encourages people to engage in a critically reflective process of learning.
