HOW TO DELIVER AFFORDABLE, SUSTAINABLE HOMES FOR ALL

1. Understand the difference between property market and housing system - we have responded much of the demands of the property markets...but still our housing crises remain.

HOW TO DELIVER AFFORDABLE, SUSTAINABLE HOMES FOR ALL

1. Understand the difference between property market and housing system - we have responded much of the demands of the property markets...but still our housing crises remain.
2. Understand the role of land. Land is the speculative component.

HOW TO DELIVER AFFORDABLE, SUSTAINABLE HOMES FOR ALL

1. Understand the difference between property market and housing system - we have responded much of the demands of the property markets...but still our housing crises remain.
2. Understand the role of land. Land is the speculative component.
3. Proper planning policies. SHDs, smaller, higher, no Part V, no parking, etc. -> all drive land values, and preclude affordability.
