Exam Results Explained Info Session

#BeSeptemberReady

Rose Donovan

Academic Advisor

What we will cover

- How results are calculated
- How to access your results
- The various progression categories and what they mean
- What next: supplemental exams, repeating, reviewing scripts, rechecking results and the appeals process
- Key referral points: including Academic and Non-Academic supports

How results are calculated

Your **annual mark** is calculated by taking the credit weighted average of your module marks, excluding any ungraded modules (only modules that you have passed and earned credits in are included in the calculation).

Your **subject mark** is calculated as the average of all your marks in modules taken in that subject (all marks are included in the calculation including the marks from modules you have not passed).

How to access your results

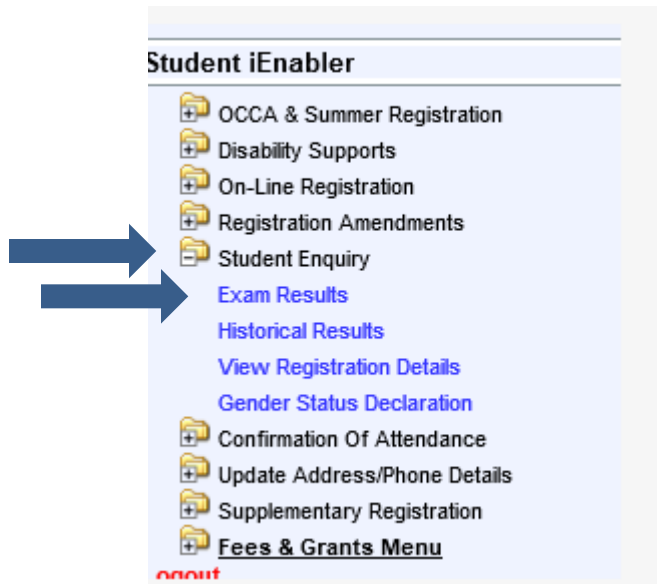

When results are issued they will be released online and you can access them by logging in via Student Web

The screenshot shows the Maynooth University logo at the top left, which consists of a stylized shield with four quadrants in blue, yellow, red, and green, and the text 'Maynooth University National University of Ireland Maynooth' to its right. Below the logo is a white login box with a dark red header bar containing the text 'Student Web Login'. Inside the box, there is a label 'Student ID Number:' followed by a text input field. Below that is a label 'Password:' followed by a password input field. At the bottom of the box is a dark blue button with the text 'Login'.

How to access your results

Select **Student Enquiry** and then **Exam Results**

How to read/understand your results

Award Mark:: This box only appears when graduating

Annual mark result: Shows the mark for this period of study and only includes modules you have passed

Credits Academic Year: shows total number of credits earned for your current academic year

Credits Period of Study: shows the total cumulative credits earned in this period of study. If repeating a period of study, it will include previously earned credits.

Credits to date: Shows the total earned for a first year student this should read as 60 credits

Student Number: 123456789
Annual Mark/Result: 62.6
PROGRESS

STATEMENT OF RESULTS - Autumn 2020

Qualification: BACHELOR OF SOCIAL SCIENCE Credits-Academic Year: 60.0
Period of Study: FIRST YEAR Credits-Period of Study: 60.0

Module Results

Subject	Module	Title	Credits	Mark %	Result	Att
SP152	SP152	INTRODUCING SOCIAL POLICY 2	7.5	75.0	SA	PASS

For information on interpreting this statement of results please visit the Maynooth University Exams Office website.
No Indicator: Copied and/or (Example) and/or Required and/or Best mark

Subject Results

Subject	Title	Credits	Mark %	Result	
SP152	SOCIAL POLICY	30.0	30.0	55.8	PASS

[About Us](#) | [Disclaimer](#) | [Terms & Conditions](#) | [Privacy & Security Statement](#)

What do my results mean

Progress

- This means you have passed all modules and can progress to the next year of study

Restricted Compensation

- You have not achieved the pass mark in all of your modules but you have achieved sufficient marks to allow you pass by compensation. Because you have some modules which are passed by compensation this means your progression in this subject could be restricted. This means you can only progress in the subject(s) you have achieved a progression result in. You can progress to the next year of study in any subject that has a result of Pass(P), Pass by Compensation (PC) or Allowed Progression (AP). You might have progression results in all of your subjects and this restriction will not affect your choice of subjects in second year . Any subject that you have not got a progression in requires you to resit the supplemental exams in that subject if you wish to continue with it.

What do my results mean

Restricted Deficit

- This means you have modules that were not eligible for compensation and you now have a credit deficit. You can choose to progress to the next year carrying the deficit, usually in your other subjects **but** you will have to take additional credits to make this up in the next year or before you graduate.
- Even though you are allowed progress, we strongly recommend you register for and attempt the supplemental exam for that module(s) and try to clear the deficit. Progressing carrying a deficit means paying extra fees and more lectures / exams in the next year.
- Due to not passing, your result is restricted, so you can only progress in the subjects you have passed.
- Registering for the supplemental exams requires you to complete the online form which will be available on the Exams Office webpage after the results have issued.

What do my results mean

Restricted Progression

- This means you have sufficient modules to progress but there are some modules that you have not passed. The restriction applied is that you can only progress in the subjects that have a progression result.

Restricted No Progression

- This means your results allowed you to compensate and the compensation has been applied to your results. Your marks in a module were in the range of 35-39. However, you do not have a combination of subjects with a progression result that will allow you progress into second year. You will have to register for and pass the supplemental exams to progress, otherwise, you will have to register to repeat the year.

Not Progress

- You cannot progress, your marks are not in the compensation range, therefore you will have to register for and pass the supplemental exams or repeat the academic year

What do my results mean? A summary

Result	Criteria	Implications
Progress	All modules passed without compensation.	Progress to next year.
Restricted Compensation	Average mark at or over pass threshold (40%) AND All modules over compensation threshold (35%) AND At least half of the credits over pass threshold	Progression allowed only in subjects that have been passed and have a grade of Pass(P), Pass by Compensation (PC) or Allowed Progression (AP)
Restricted Deficit	A maximum of 10 credits below compensation threshold (35%) AND meets compensation rules above in other 50 credits	Progression allowed only in subjects that have been passed or have permission to progress with deficit. Students must 'make up' credit deficit in Year 2, 3 or 4
Restricted No Progression	You have met the requirements to compensate but you have no viable progression pathway	You must register for any module(s) you have not passed in the August supplemental exams and pass the modules and earn the credits to allow you progress

What do my results mean? A summary

Result	Explanation	Implication
Not progress	<p>More than 10 credits below the compensation threshold (35%) OR Less than 50% of credits above the pass threshold (40%) OR Average mark in best 50 credits is less than the pass threshold.</p> <p>You have not achieved a pass mark in sufficient modules to allow you progress.</p>	Progression is not allowed.

Options if you do not pass a module

1. Supplemental Assessments / Exams

- An opportunity to re-sit some or all of the assessment in August
- Register for the supplemental assessments / exams via online form available on the Exams Office webpage – available from Monday 26th June
- Check the moodle page for the module /subject to see how it is being assessed in the Supplemental exams and/or contact the Admin Office of the subject you have not passed

2. Repeating in the next academic year

- If you do not pass a module you can repeat it the following year or take an alternative module in its place if available or change subject
- Changing subjects and repeating will have Fee and SUSI implications as well as the period of time it will take you to graduate

3. Cost of August Supplemental Exams (from Fees Office webpage)

- **Cost per Credit** - Autumn supplemental resit assessment fees cost **€10.00 per credit** (irrespective of method of assessment) e.g a 7.5 credit module will cost €75.00.
- **Maximum Charge** - Students repeating multiple modules will be liable to pay a maximum of €280.00 (e.g. a student repeating 4 x 7.5 credit modules will be charged €280.00).
- **Minimum Charge** - A minimum fee of €50.00 applies in all cases (e.g. a student repeating 1 x 2.5 credit module will be charged €50.00).

Frequently Asked Questions

I have passed /passed by compensation all modules in the subject , so why is the subject result reading as “not passed?”

You may not have an average mark of 40 in the subject so the result is not passed.

- You have not passed at least half of the credits in the subject without using compensation so again the result is not passed
- If you have a pass by compensation (PC) result in a module that is a required module for the subject then you will not have passed . Any required module or module with an “R” indicator must be passed without compensation

Frequently Asked Questions

My annual mark is over 40 so why is my overall result “not progress?”

- The annual mark is calculated as the credit weighted average mark in the modules where you have earned credits. If you have modules that you did not pass, these are then excluded from the calculation. You should check the number of credits you have passed and if you have not got sufficient credits passed your result will be a **Not Progress**.

You should always have a look at Marks and Standards for a more in-depth explanation of the rules: [Marks and Standards](#)

Consultation Day & Rechecks/Appeals

Consultation Day – June 27th

- Staff available in all Departments to discuss results.
- Students are entitled to see their examination scripts if they wish by arrangement
- Please contact the relevant [department/school](#) directly for details.

Rechecks & Appeals

- You have the option of a recheck and/or an appeal of an exam mark.
- It is strongly recommended that you first attend consultation day to meet with your dept. about the exam mark before applying for a recheck or appeal.

Process to Recheck Exam Results

- Download, complete and return the Examination Result Recheck Request form (Form RE2) to the Registrar's Office within two weeks of the release of results
- A fee of €25.00 per subject applies for checking a result
- A recheck does not involve the reassessment of work, or alter any academic judgement made in assessment
- The Registrar will inform the student of the outcome of their recheck and, if recommended by the Head of Dept, will arrange to have the result amended

[Recheck and Review](#)

Appeals Process

An appeal of an exam result shall be considered:

- (a) If there is evidence of substantive irregularity in the conduct of the exam
- (b) If there are circumstances which the Programme Examination Board was not aware of when its decision was taken.

Process:

- 1) Students wishing to appeal should write to the Registrar setting out grounds for the appeal within 3 weeks of the results being released.
- 2) A completed Examination Appeal Form, available on the Registry website, must also be submitted along with the detailed statement above.
- 3) A fee of €60.00 per subject is applied for an examination appeal.
