

## MH415 - BSc Economics (Integrated with MSc Economics)

### FAQ:

#### ***11- What will be my career options with BSc Economics only?***

As a graduate of BSc Economics, you will have the analytical and technical skills to find the best solution to the problem at hand. This combined with good communication skills is the golden key that will open many doors for you. With the BSc Economics degree you can directly start working either in the private sector or in the public sector as consultants, fund managers, investment bankers, urban planners, teachers, journalists...Or you can do a master's in areas like business, finance, international development, public policy, marketing... BSc Economics opens the path also for postgraduate studies in technical areas such as data science.
