### **Progression**

A doctoral scholarship is contingent on the holder being a registered doctoral student and meeting all the requirements for annual progression. The scholarship, and any teaching support activities, will terminate automatically when the holder ceases to be a registered graduate student. It is a legitimate objective of the university to provide education and training for successive cohorts of postgraduate students and providing an opportunity to students to develop skills in teaching by serving as a teaching assistant, tutor or demonstrator is an important part of postgraduate training, so University makes such work available to postgraduate students as a priority.

### **Closing date for applications**

Applications will be accepted up to the closing date of 31<sup>st</sup> May 2021.
