An indication of on-campus hours for semester 1

Please note that this is an estimation, based on the current health guidelines. We do not know, at this point, how many students will be in each class, and so cannot know for certain how many groups of 50 students there will be. As a result, we can only estimate the contact hours for many students. Equally, students will have slightly different hours in different weeks (e.g. more hours in weeks students have tutorials, fewer hours in weeks they are not scheduled to attend face-to-face lectures). You can get an average of the hours per week by calculating the total hours for the semester and dividing by 11 (11 teaching weeks)
