

Dear Health Professionals,

Mobility India is pleased to invite you for the upcoming

ONE DAY CRE PROGRAMME ON INTELLECTUAL DISABILITY & ASSISTIVE TECHNOLOGY

(In line with World Health Organisation - GATE ID)

CONCEPT AND RATIONALE :

People with Intellectual Disability (ID) are generally devalued and represented as stigmatised group, and some of their health disparities are due to health inequities regarding this group: often being disadvantaged when attempting to access or secure health services or assistive technology. This workshop is organized with the objective to orientate the targeted audience about the changes needed at social, organisational, and policy level for overcoming the barriers faced by people with ID and their caregivers in accessing health services and for professionals in provision of assistive devices for people with ID.

CONTENTS :

1. Prevalence & Need of assistive devices for people with ID
2. Introduction on Assistive Technology (AT) and policies
3. Provision of assistive devices
4. Scope of Research in field of ID & Assistive Technology
5. Research project GATE-ID in conjunction with WHO
6. Interactive session on
 - Barriers on accessing/provision of AT for People with ID
 - Changes at the Policy level to make change a reality
 - Changes needed in organisation/institution represented

Methodology: Lectures, Interactive discussions and practical demonstrations together with persons with ID

WHO CAN PARTICIPATE:

Health care professionals from Prosthetics & Orthotics, Physiotherapy, Occupational therapy, Speech & Language therapists, Psychologists, Special Educator, Rehabilitation social workers, DPO's and NGOs working with ID.
