

Department of Biology
Post-Graduate/Post-Doctoral
Seminar Series

11am Tuesday 14th February JHL2, John Hume Building

Ewa Oleszycka - *Molecular Immunology*

“Regulation of dendritic cell functions by the E3 ligase Pellino 2”

Jennifer Corbett - *Cellular Immunology*

“Mesenchymal stromal cells display enhanced protective effects in response to macrophage migration inhibitory factor”

Nicola Maloney - *Biotechnology*

“Exploring iron starvation in *Aspergillus fumigatus*”

Johana Isaza Correa - *Molecular Immunology*

“Investigating the roles of Pellino proteins in cell death”

Chair: Anatte Margalit

All welcome to attend
Tea, coffee and biscuits provided
