# Research Integrity

Ensure researchers understand their professional responsibilities.

Research Integrity is an online course which provides practical advice on dealing with the complex issues that can arise while planning, conducting and reporting research.

1 course which is available in **5 faculty versions**

5 hours of core activities per faculty version

Up to 32 hours of additional learning

ABOUT THIS COURSE:

➤ This course covers every stage of the research process.

➤ *Research Integrity* can help meet funding agency requirements, such as providing evidence of training in the responsible conduct of research.

➤ As a result, universities can be confident their staff are working   to the highest possible integrity standards.

➤ The courses are now available in HTML 5 and compatible for all formats.

➤ Suitable for undergraduate, postgraduate and early-career researchers.

impact

Impact

Gain an insight into your learning environment and measure the effectiveness of your online training.

In the UK, from April 16, PSRL is combined with a complete suite of *Impact* measurement tools written and developed by leading academics, including Professor Nick Steneck, Professor Emeritus of History at the University of Michigan.

The *Impact* toolset combines analytics and reporting tools covering the basics of course uptake, completion and performance, with surveys designed to provide critical information about learning or research climate, learner motivations, capabilities and perceptions of training quality.
