M.A. Spatial Justice Department of Geography Maynooth University

Public Engagement

Recent partners include: the solidarity group Right2Water, the Irish Housing Network, the Dublin Bay North Choice and Equality Network, and the Maynooth University Housing Justice Research Group.

Staff and students at a community dinner of the Irish Housing Network

Spatial Justice

Working with Maynooth geographers, and their public engagement partners, students learn to document, map, and explain forms of discrimination, violence, and displacement. They learn how citizens can use geographical knowledge to challenge the legacies of structural injustices and seek more equitable futures.

Make a Difference

"I loved that something I did was finally a tangible sort of product that some other person could use."

The research skills "helped me land my dream job."
