PUBLIC SEMINAR: WEDNESDAY 25TH OCTOBER 2023 7.00 pm to 8.15 pm

REGISTER HERE <https://ESAISIG.eventbrite.com>

Title: Critical-Feminist dialogues in emancipatory education

Professor of Science Education and
Environmental Education at University of
Canterbury, Aotearoa, New Zealand

Sara Tolbert (PhD, Education) is Associate Professor of Science Education and Environmental Education, Faculty of Education at University of Canterbury in Aotearoa New Zealand, previously Associate Professor in Sociocultural Studies at University of Arizona (USA). Sara is a former science teacher, environmental educator, and works with students in multilingual contexts in USA, New Zealand, Mexico, and Guatemala.

For the C&F ESAI SIG, Sara will draw from critical-feminist theories, feminist studies, and critical pedagogy as ethico-political frameworks for thinking and acting with radical care and solidarity for an emancipatory education. She will pay attention to the philosophical perspectives and theorizing of Paulo Freire, bell hooks and Donna Haraway in this regard.

Sara works on Postdigital Pedagogies of Care, *Pāngarau Unleashed: a Multiple Case Study of De-Streaming Secondary Mathematics*, *Freire: A Praxis of Radical Love and Critical Hope for Science Education*, and *Reimagining Science Education in the Anthropocene*. She co-leads the Ōtautahi Food Justice Research Collaborative, a UC Community Initiative, and co-directs the UC Learning for Earth Futures (LEAF) cluster.

Tolbert, S. et al. (2022). On love, becomings, and true generosity for science education: honouring Paulo Freire. *Cultural Studies in Science Education*, 17, 2017-230. <https://doi.org/10.1007/s11422-021-10098-w>
