22.5 credits does not make a Double

The difference between a double subject and 22.5 credits in a subject

| Subject Credits | Semester 1 | Semester 2 | Total |
|--|-------------|-------------------|--------------|
| Double subject | 15 credits | 15 credits | 30 credits |
| Single subject & additional module in 2 nd semester | 7.5 credits | 7.5 + 7.5 credits | 22.5 credits |

In general, students who register for 22.5 credits in a subject have the same progression options as a student who studies 15 credits of the subject.

Accounting is an exception to this rule.
